

Hillrom™

TL1000 Examination Light

Wide range of applications

VALUE AND FLEXIBILITY

Halogen is history. Now, you can enjoy all the benefits of LED technology in your examination light, including greater light intensity, longer service life, reduced heat generation and minimal power consumption. In addition, the specially balanced support arms and lightweight head help make the TL1000 Examination Light easy to position.

ENERGY EFFICIENT

Power with economy

Our lighting system offers compelling advantages over the traditional halogen light including a significantly longer service life, less heat generation, greater reliability and lower power consumption.

HANDLING

Simple, flexible, convenient

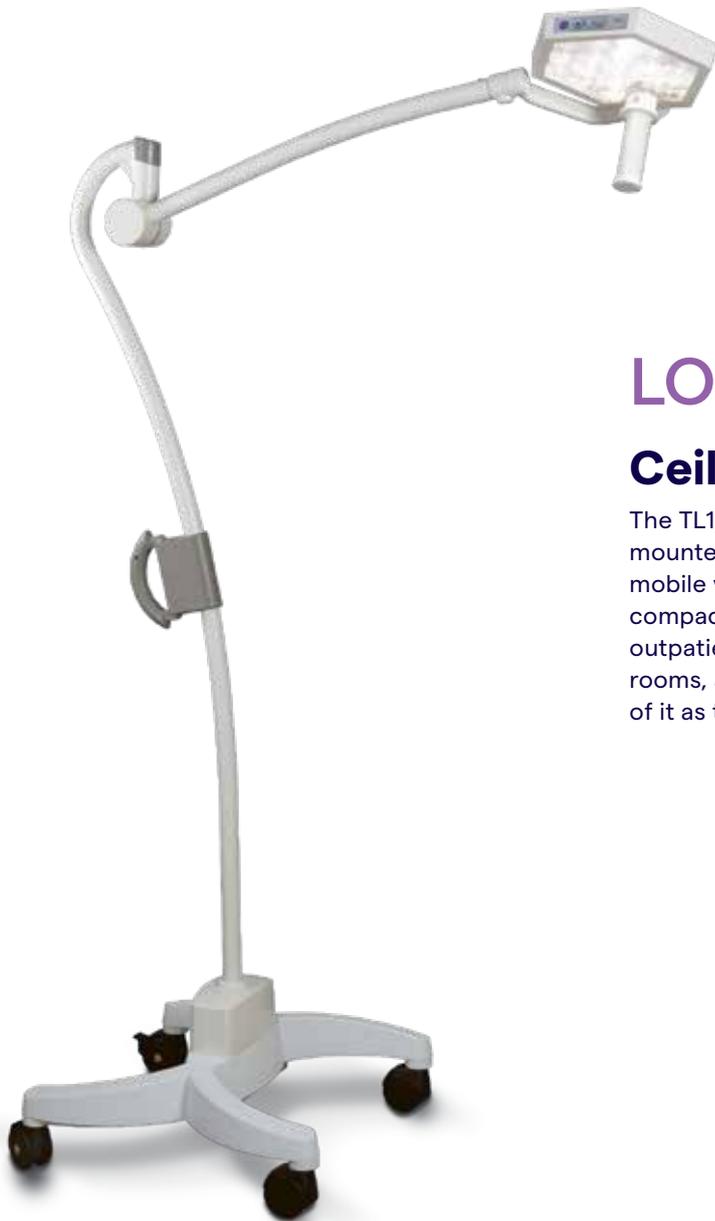

With specially balanced, lightweight support arms, the TL1000 Examination Light is easy to position. Plus, with the sterilizable handle, it is suitable for hygienic applications. Everything you could want in comfort and flexibility.

LIGHTING

State of the art

With its LED technology, the TL1000 Examination Light offers not only higher light intensity, but also superior light quality when compared to conventional halogen lights. Light is optimally distributed by the unique Hillrom multi-lens matrix, which provides homogenous light quality in both area and depth, for the best possible visualization during examinations.

LOCATION

Ceiling, wall, mobile

The TL1000 Examination Light is available in ceiling-mounted, wall-mounted, pendant arm-mounted and mobile version. With its high flexibility and space-saving compact design, it is a necessity for medical practices, outpatient clinics, and hospital examination and delivery rooms, as well as preparation and recovery areas. Think of it as the "one for all" light.

TECHNICAL SPECIFICATIONS

| | |
|--------------------------------------|--------------|
| Illumination level E_c at 1 m (lx) | 80,000 |
| Pattern size (d10) at 1m | 16 cm (6.3") |
| Color temperature (K) | 4,500 |
| Color Rendering Index (Ra) | 95 |
| Average service life of the LEDs (h) | >50,000 |

Values are subject to a general industry tolerance of ± 10%.

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
